

EXPERIMENT 3

PradeepKumat(192425016)

Property Buying & Rental System

Aim: To develop a cloud-based Property Buying & Rental System for Chennai using Zoho Creator.

Procedure:

1. Create a new application in Zoho Creator.
2. Create Property Listing Form (owner details).
3. Create Customer Request Form.
4. Add fields like property type, location, price, contact, etc.
5. Configure validations and dropdown options.
6. Test the application by adding sample properties.

Output:

Chennai Property System

Property Listing

Property Listing

Property Listing Report

pradeepkumar

Property Listing Report
